

# Measuring Scavenger Hunt

Use a ruler, yard stick, or measuring tape to measure items on this list. You cannot use the same object for more than one challenge. The first person to find all the items wins!

- Something that is exactly 11 inches long.
  
- Something more than 2 feet long.
  
- Something that is exactly 10 centimeters long.
  
- Two different things that are exactly 9 centimeters long.
  
- Something that is 18 inches long.
  
- Something less than 1 inch long.
  
- What is the smallest thing you can measure?
  
- Something that is between 4 and 5 inches.
