

Turbo Lister Installation Guide

After you download Turbo Lister from [here](#), you will need to install it.

1. After you click "Download Now!," you will need to click on your download. I am using Google Chrome, so my downloads appear at the bottom of the screen.

The screenshot shows the eBay Turbo Lister installation page. At the top, the eBay logo and navigation links are visible. The main content area features the Turbo Lister logo and a large green button labeled "Download Now!" which is circled in red. Below this, there are sections for "Helpful Turbo Lister Links" and "Features". At the bottom of the page, the Windows taskbar is visible, showing a download icon and a file named "setupUS.exe" which is also circled in red. A "Show all" button is located in the bottom right corner of the page.

setupUS.exe

Show all

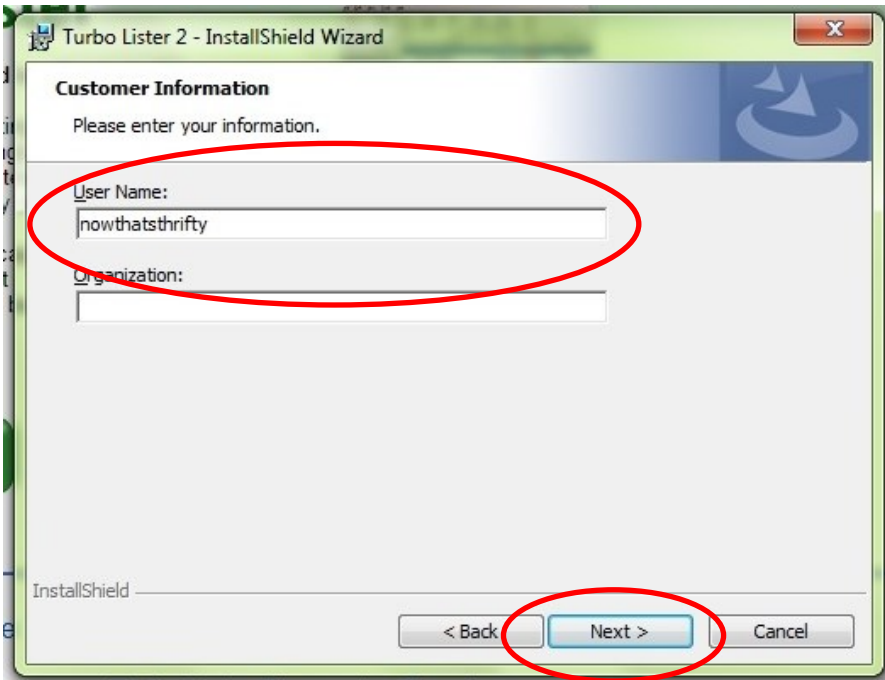

2. Once you click on the download, this box will appear. You will need to click "Next."

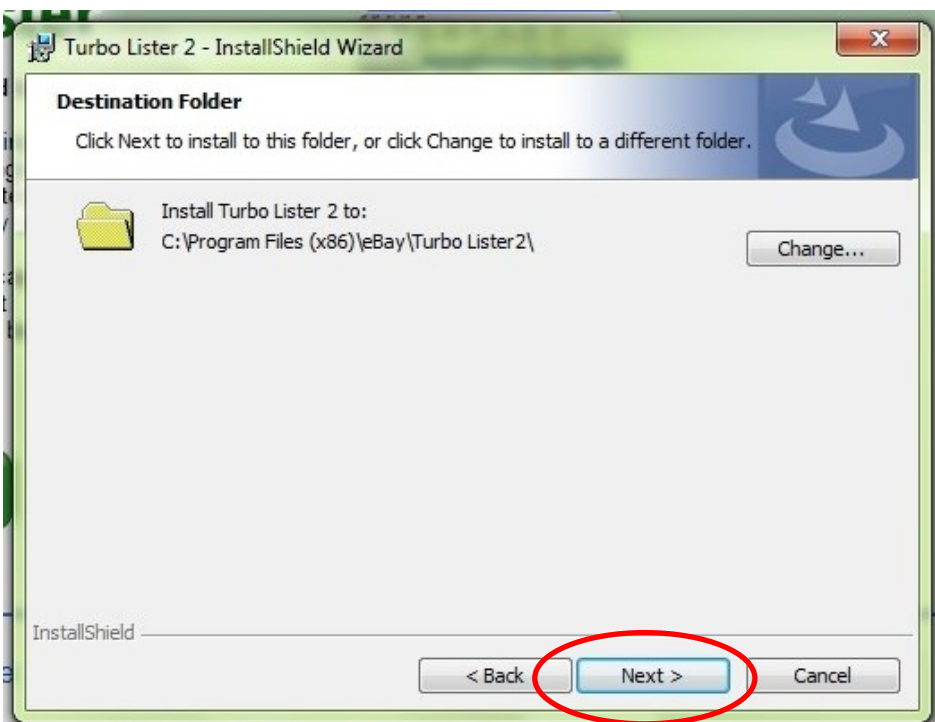

3. Read through the license agreement. Then, you need to click the bubble next to "I accept the terms in the license agreement." Click, "Next"

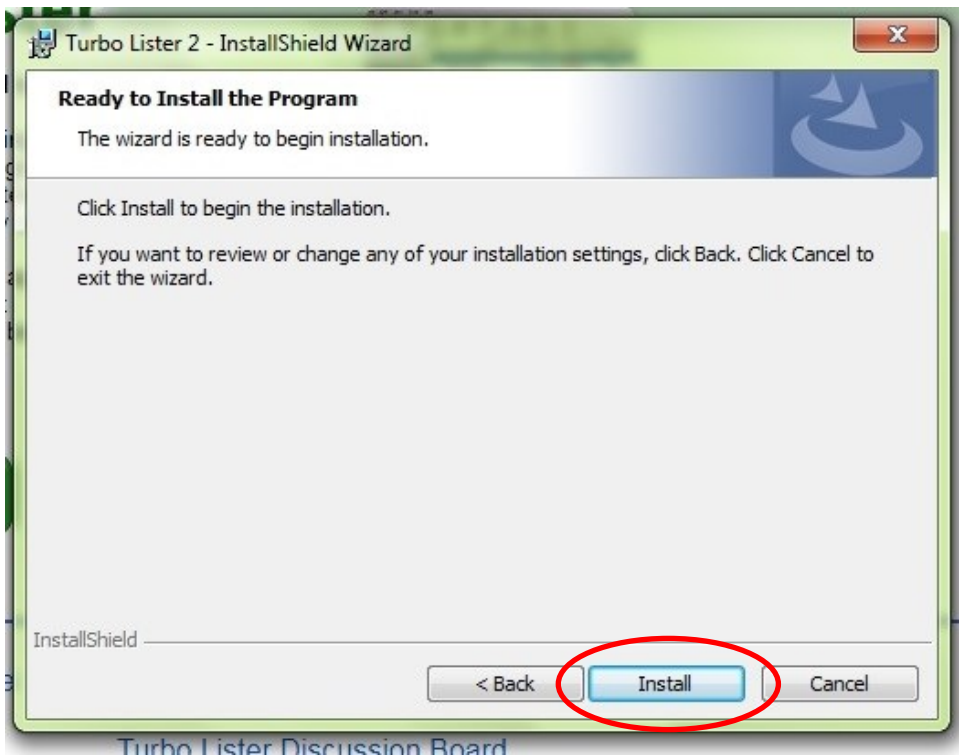

4. Enter in your username. You don't have to worry about the organization. Then, click "next"

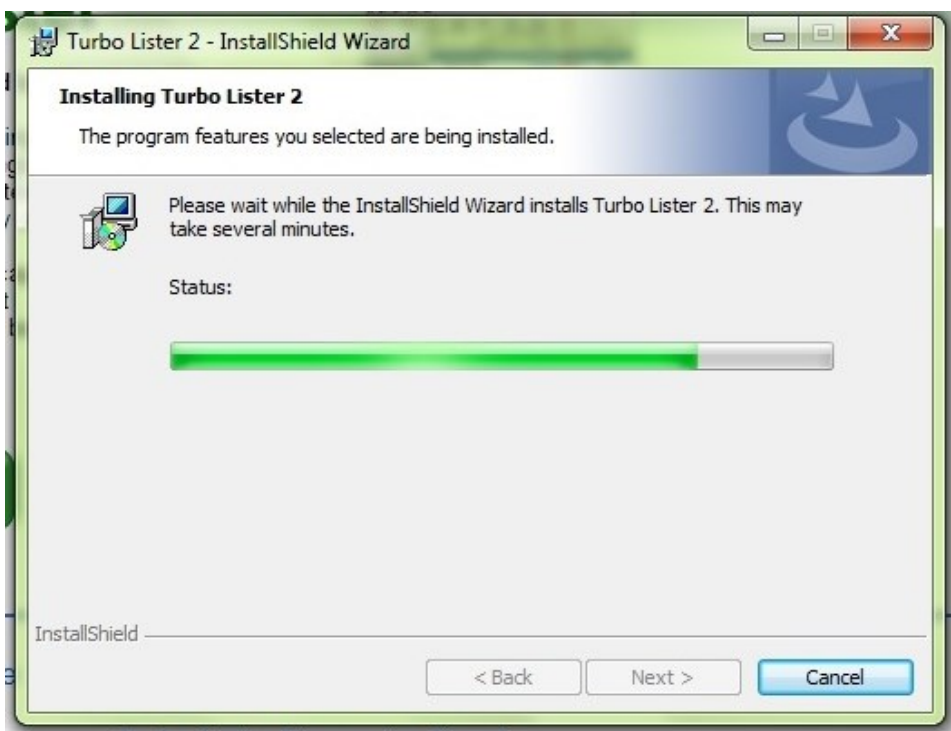

5. Next, you can choose where you want your computer to house your Turbo Lister files. You can leave it to the selected file or change it. We left ours to the default folder. Then, click "next."

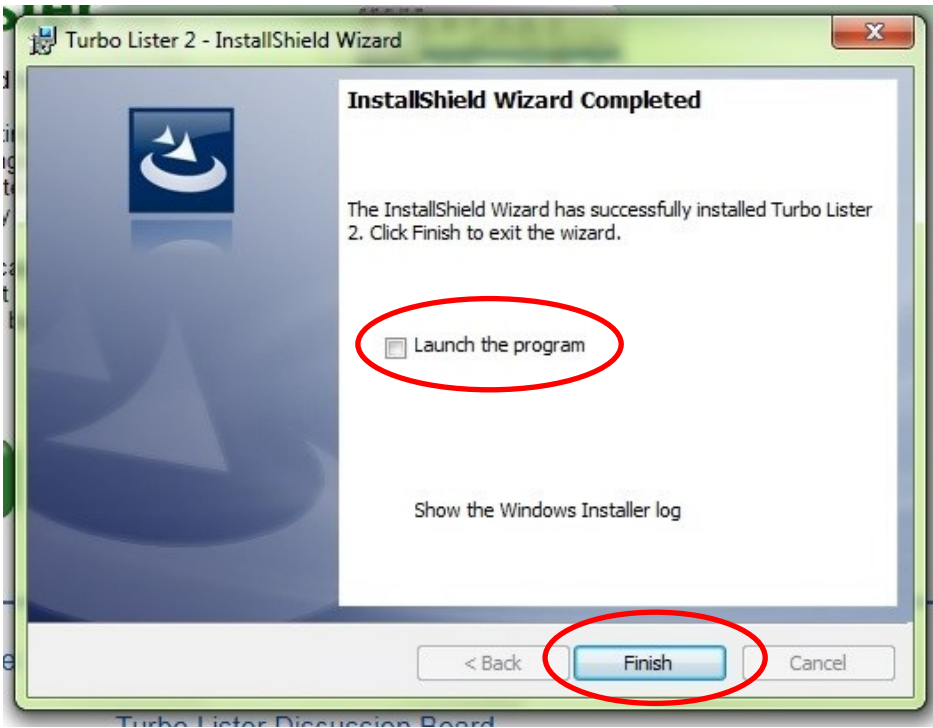

6. Now, you will be able to install Turbo Lister. Click "Install."

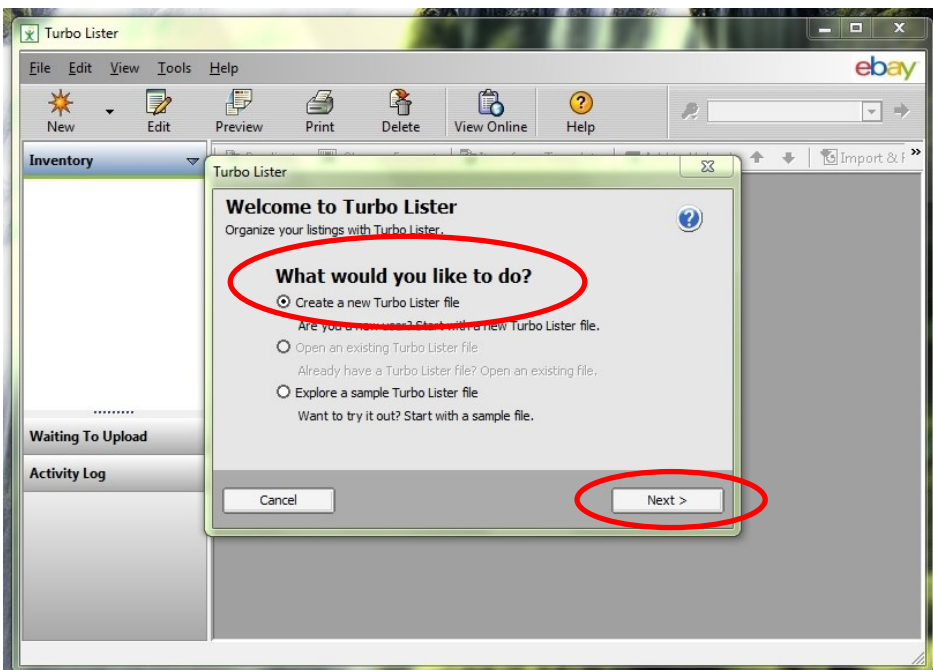

7. Now, you will have to wait for Turbo Lister to install.

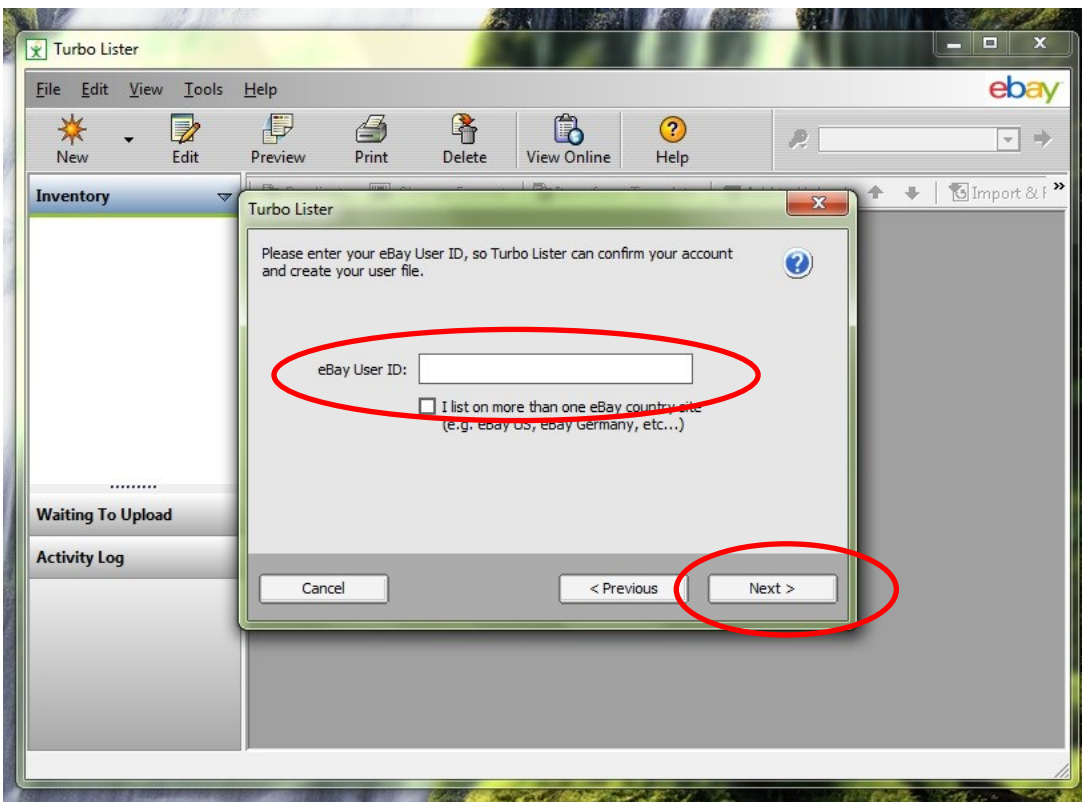

8. Once it finishes installing, you have the option to launch the program. If you are planning on working on Turbo Lister right away, check the box that says "Launch the program" and click "finish." If you are going to work on it later, just click "finish."

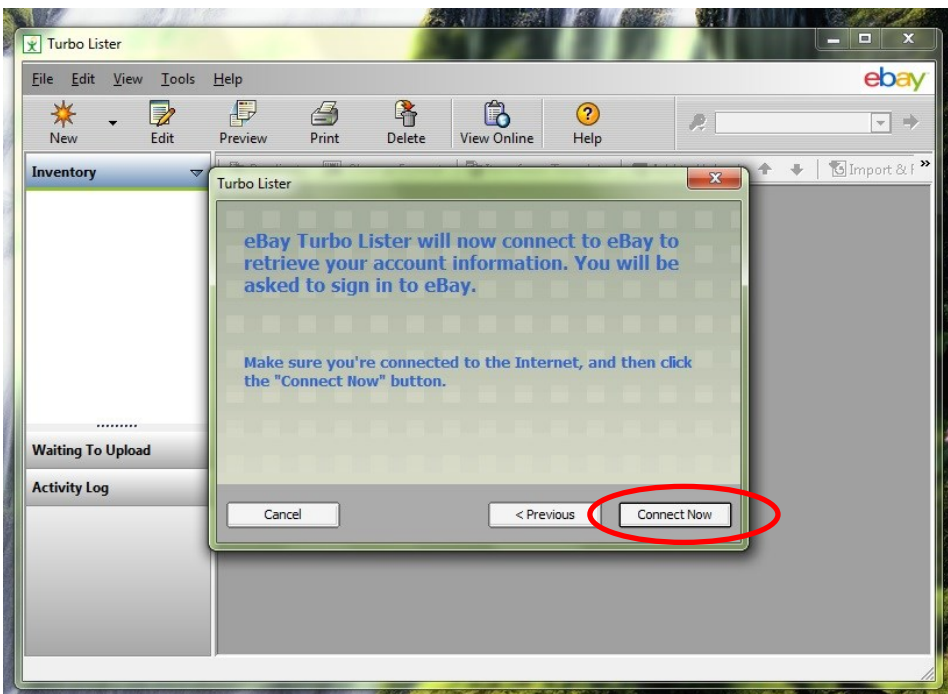

9. Whether you chose to work on it right away or later, you will see this welcome message. You will want to click the bubble next to "create a new Turbo Lister file" and then click "next."

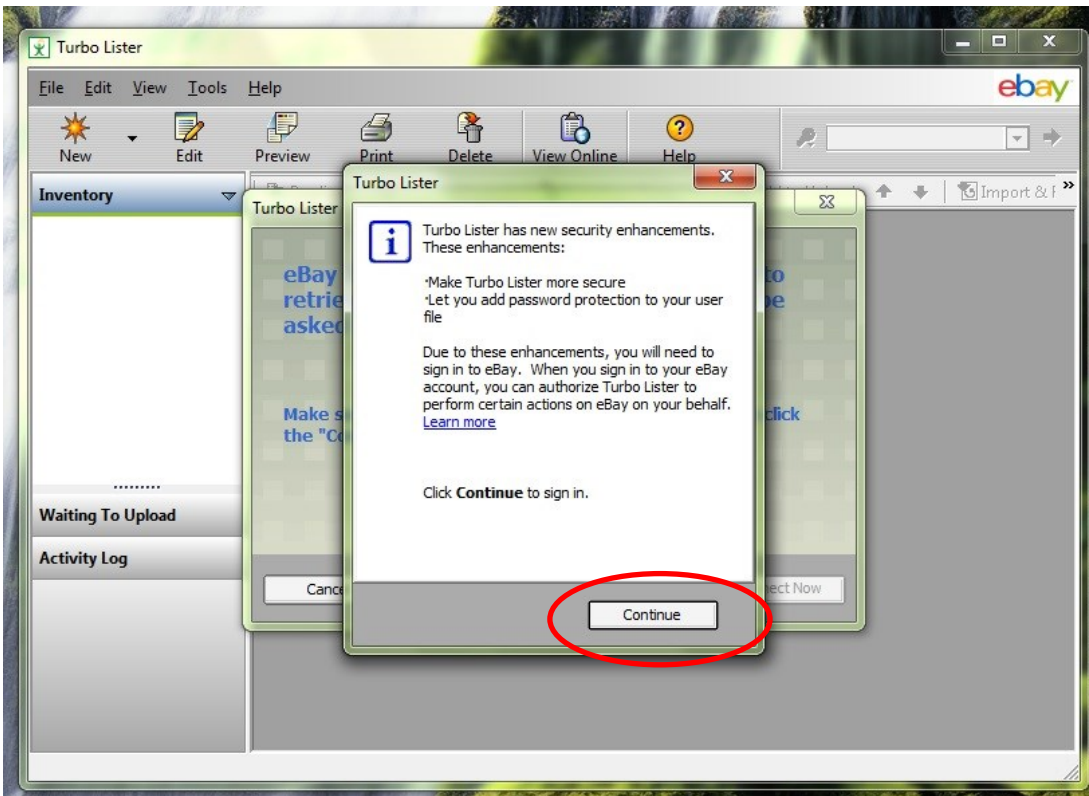

10. You will need to type in your ebay user ID. Then, you will click "next."

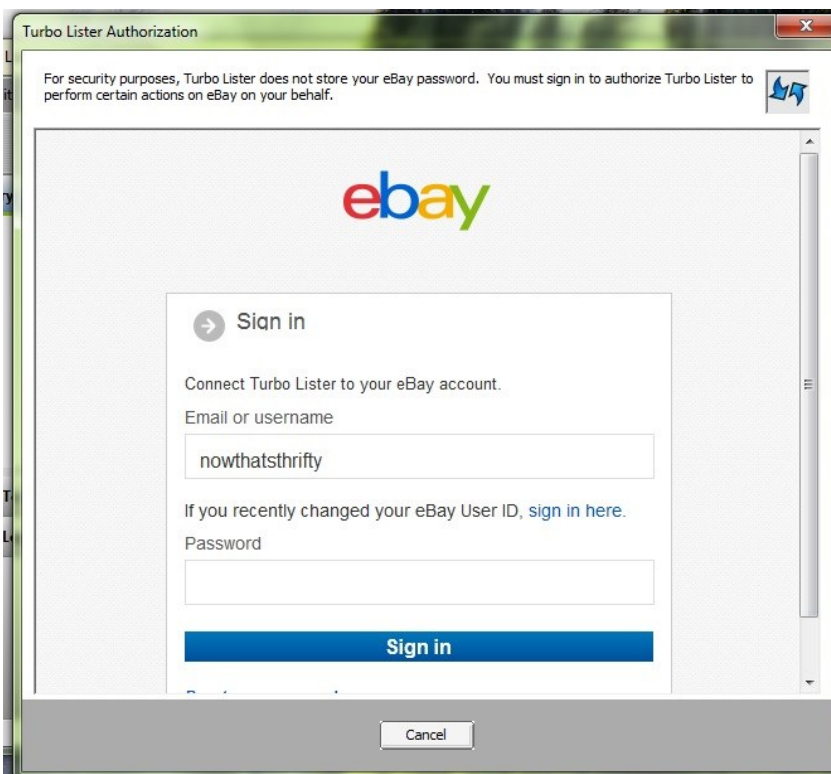

11. Click "connect now" to connect your ebay account to Turbo Lister.

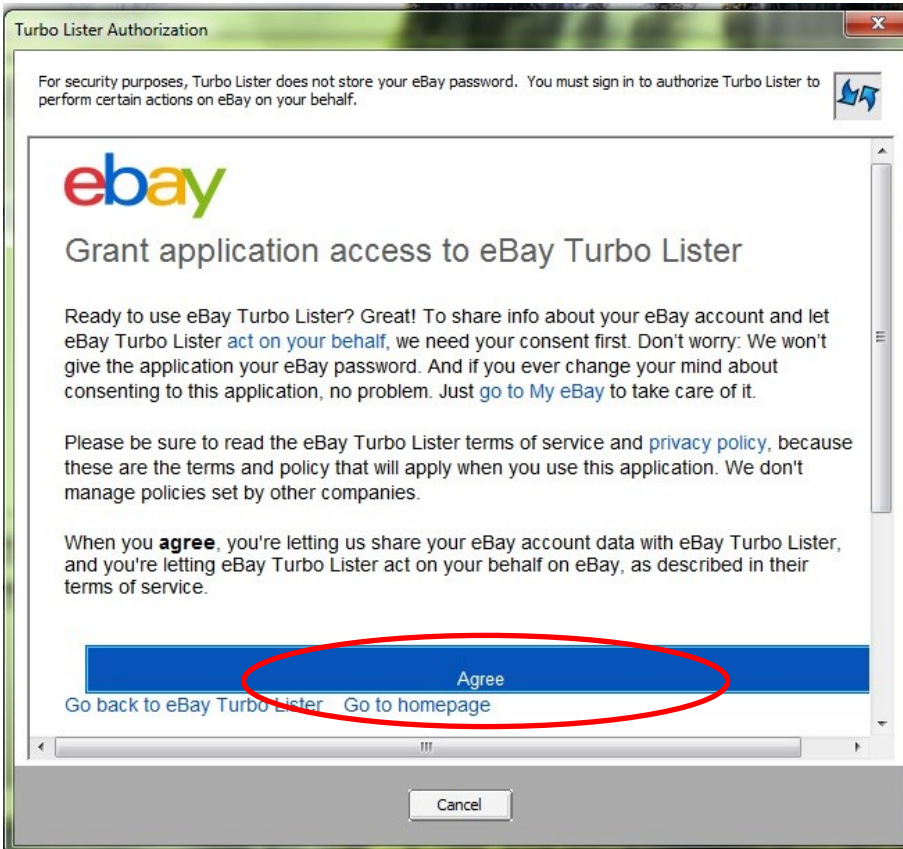

12. If this message pops up, just click "continue."

13. Type in your ebay username and password. Then click "sign in."

14. After you have signed in, you will need to grant access to ebay to share info to Turbo Lister. Click "Agree" after you have read the application.

15. The contact information box will come up. It probably will already be filled in. Go over it and make sure the info is correct and then click "next." Now, you are finished installing it.
