

What Can I Sell on eBay?

Tip 1: Pick Items You Know About

Buyers like to ask sellers questions about their items, so it is important that you know about the items you are selling.

Tip 2: Pick Items You Already Have

If you already own items, it saves you the time of going out and buying them.

Tip 3: Pick Items That Are Selling

It is important to look up the items you want to sell to see if people are actually interested in buying them.

Tip 4: Pick Items That You Can Ship

It is a good idea to pick items that are easy to ship without worrying if they will break or not. Remember that bigger items cost more to ship.

Tip 5: Pick Items That You Can Find

If you don't already have the items you want to sell, look at garage sales and resale shops for items that are cheap enough to make a profit on.
